2019 School or Center Recipients: Goal: 8   *Sponsor: 20/22 Act Foundation*

WCE Will Provide Each School of Community Center:

- 20 refurbished computers, monitors, keyboards, mice, and cables
- Preloaded virus-free Linux operating system, an open office suite & WCE educational content in Spanish
- Basic orientation to Linux, LibreOffice, and the WCE content pack
- A business or university volunteer to help as a computer science and programming coach as feasible
- Free license for Teaching.com in English and Typing.com Digital Literacy in Spanish
- Invitation to a teacher for next CS4All-PR professional development in computer science
- Access to proprietary software as requested by school and as feasible
- Access to training in SAT preparation in Spanish as it becomes available

Each Recipient School Or Center Agrees To The Following:

- Hold a club or class in your school or center to do either of the following:
  - identify or develop educational content in Spanish for WCE to add to the WCE educational content pack to be loaded in all computers
  - develop resources to be shared for teachers who want to inspire girls to pursue careers in technology
- Initially use the Ubuntu operating system and open office suite and WCE content
- Identify contact for WCE at the school
- Participate in Computer Science for All – Puerto Rico (CS4All-PR)
- Complete WCE/UPRRP technology needs assessment
- Send monitors and greenboards to a certified recycler when they can no longer be made to work
- Thank those who helped provide you with computers - this could include posting a sign, providing digital pictures of students with computers for social media use, and allowing WCE to mention the school publicly

In Puerto Rico, WCE acts as a broker recruiting businesses and universities to donate resources such as computers and volunteers to help improve digital learning and computational thinking in schools and community centers
