Inspire Girls Women Entrepreneur Videos

Thank you for agreeing to make a video about yourself for our Inspire Girls program. Your audience will be primary and secondary school girls in developing countries who are being encouraged to pursue careers that involve technology.

We plan to make your video available via our eNews, website, social media, and by loading it in the computers we ship. If we decide to make edits, insert visuals, or add music to better fit with other videos, we will share the finished product with you before we use it.

The video should be between 5 and 10 minutes long. It would be a plus if you can show yourself at work. You can add visuals and music if you wish. If you are fluent in languages other than English, you are encouraged to make videos in those languages!

The formats should be either .mp4 or .flv. Both of these formats produce reasonable quality with high compression and small file sizes. Avoid .mov and .avi. Please make sure the audio narration is clear and loud.

Points for you to Consider in Your Video:

1. Who are you, in what country do you live, and what do you do?
2. From your childhood, what are your earliest dreams or expectations about your future?
3. Did you feel your experience as a girl in school differed from the experiences of boys? How?
4. What factors in your life helped make you strong in the face of adversity?
5. What does your career journey look like?
6. How did you start out in this career field?
7. When did you first become interested in technology?
8. How have you developed your career and gotten to where you are today?
9. Is there a person who inspired you to pursue your career?
10. What role did technology play throughout your career?
11. What are some obstacles you’ve faced as a female in your career and how did you overcome them?
12. What are some lessons you have learned as a female entrepreneur?
13. What advice would you give to girls aspiring to a career that depends on technology?

When you have completed your video please email it to Fatoumata Sall, Inspire Girls Manager, at InspireGirls@WorldComputerExchange.org. She is eager to answer any of your questions.
