Over 200 volunteers in our five chapters refurbished the computers, loaded the hard drives with educational programs, and prepared them for shipping. The schools receiving the equipment estimate that the equipment will serve 15,975 students annually. WCE works with 11 field associates in 10 developing countries on a fee basis. They will develop WCE chapters in those countries, utilizing the WCE process to collect, refurbish, load, and distribute computers to local community schools and other organizations serving youth. They will also help our partners maintain their computers and provide technical assistance. 01. General Explanation Attachment

During the fiscal year that ended on June 30, 2023, the Organization confronted significant challenges following the recent passing of its President and Founder on July 12, 2022. One pressing issue was the difficulty in securing affordable storage and the sluggish demand for used computer desktops. In response, the board of directors made a strategic decision to cease accepting donations for computer desktops and associated accessories and opted to diminish the inventory of these devices substantially. Consequently, by June 30, 2023, the organization undertook the disposal of old desktop computers, generating a total loss on inventories of $300,518, net of residual value of $3,307.

In addition to these challenges, the organization grappled with difficulties in holding volunteer events and international shipping due to the ongoing impact of the pandemic. The worldwide health crisis has significant hindered the Organization's capacity to carry out essential in-person volunteer activities aimed at repairing and reconditioning outdated desktop computers. These pandemic-related obstacles posed significant hurdles for the organization, necessitating adaptive measures in its operational strategy.

In light of the challenges faced, the organization's management has implemented a new operational strategy centered on the exclusive reception and shipping of laptops. This strategic shift aims to not only curtail storage and shipping costs but also address the challenges posed by the pandemic, allowing for greater flexibility in serving and supporting the youth in developing countries. The management is optimistic that focusing on laptops will optimize logistical efficiency and enable the organization to better navigate the uncertainties imposed by the ongoing global health crisis.
